

**IN DEFENSE  
OF ANIMALS**

## Letter of Acknowledgement

---

**08 December 2017**

Thanks to Billy and Eco Superfoods generous support of In Defense of Animals Strength in Kindness High School Tour, thousands of students across Australia and the U.S. have been empowered to make healthier and compassionate food choices.

The world becomes what we teach, and Billy is the perfect role model to deliver this crucial message.

We look forward to the day when this form of education is so deeply embedded into schooling that it becomes part of the core curriculum, and that schools will as a matter of course, teach students to have respect for all animals, their health, and the environment – in ways that are good for us all.

Billy and Eco Superfoods are a treasure to our organization.

We thank you today, but our future generations will thank you tomorrow.
